THE CHICAGO ATHENAEUM ANNOUNCES THE BEST OF THE BEST IN NEW GLOBAL DESIGN FOR CONSUMER PRODUCTS, GRAPHICS, AND PACKAGING FOR 2019

GOOD DESIGN—The Global 21st-Century Industry Standard Awarding the Latest, Most Advanced Products and Designs for their Innovation and Invention from FORTUNE 500 Companies, Manufacturers, Start-up Companies and their Renowned Designers

CHICAGO, ILLINOIS (December 12, 2019) — GOOD DESIGN® is the world’s most prestigious, recognized, and oldest Design Awards program organized annually by The Chicago Athenaeum Museum of Architecture and Design in cooperation with the European Centre for Architecture, Art, Design and Urban Studies.

GOOD DESIGN covers new consumer products, graphics, and packaging designed and manufactured in Europe, Asia, Africa, and North and South America.

The trademarked, historic awards program was founded in Chicago in 1950 by architects: Eero Saarinen, Charles and Ray Eames and Edgar Kaufmann, Jr. and is continued now for 70 years.

GOOD DESIGN is synonymous with the leading and best contemporary design produced around the world.

The distinctive black dot-shaped logo was designed the same year by the late Chicago graphic designer, Mort Goldsholl in 1950.

For seven decades, hundreds of thousands of leading winning designers, manufacturers, and global companies print the Good Design logo for awarded products on their packaging, marketing information, advertising, websites, corporate information, posters, billboards, and branding to the widest international consumer audience.

From underwater sea drones and new autonomous cars to everyday objects, entries for design and innovation, sustainability, creativity, branding, ecologically responsible design, human factors, materials, technology, graphic arts, packaging, and universal design are submitted annually by various industrial design and graphic design firms working for the FORTUNE 500 companies.

For 2019, over 900 new products and graphic designs were selected and awarded from over 47 countries for new electronics, transportation, medical equipment, protective equipment, energy systems, robotics and bionics, building products/materials, furniture, textiles, industrial, environments, hardware, bath and accessories, kitchen/appliances, floor and wallcovering, tabletop, household products, personal, office products, transportation, children’s products, sports and recreation, lighting, tools, and graphics, branding, and packaging from Europe, Asia, Australia, and the Americas.

“Good Design represents the world’s critical mass of the design and manufacturing industry representing the best consumer design ranging from the ‘spoon to the city’ for sustainability, superior design, and unparalleled function.”

“Since 1950, Good Design has become an internationally acknowledged benchmark and symbol of outstanding design that serves as a beacon for design-interested audiences in our global economies.”

Good Design is presented by The Chicago Athenaeum, together with The European Centre for Architecture Art Design and Urban Studies as the foremost program that honor and recognizes the best design talent and the best manufacturing worldwide.

The 2019 Good Design Jury was held in New York and Los Angeles and was composed of renowned international specialists with wide design experience, guaranteeing the high quality and high level of the competition.
